Brainstorm & Idea Prioritization Template

Brainstorming provides a free and open environment that encourages everyone within a team to participate in the creative thinking process that leads to problem solving. Prioritizing volume over value, out-of-the-box ideas are welcome and built upon, and all participants are encouraged to collaborate, helping each other develop a rich amount of creative solutions.

Use this template in your own brainstorming sessions so your team can unleash their imagination and start shaping concepts even if you're not sitting in the same room.

Step-1: Team Gathering, Collaboration and Select the Problem Statement

The team gathered to identify core user experience, execution speed, and auditing issues in retail paper trading platforms. The selected problem statement focuses on creating a real-time stock paper trading and portfolio management platform to connect retail traders, stock data feeds, and platform administrators.

Step-2: Brainstorm, Idea Listing and Grouping

Ideas were grouped into key clusters: User Authentication & Security, Real-Time Market Feed Simulator, Order Execution & Trade Engines, and Admin Audit & Moderation Panels.

Step-3: Idea Prioritization

We prioritized features by Impact and Effort using a quadrants matrix:
